- Engaged as a Student Assistant, providing academic support and guidance in mathematics to students.
- Conductedweekly tutoring sessions, where I thought mathematical concepts in order to enhance students understanding and academic performance.
- Responsible for correcting and providing constructive feedback on student assignments

PROJECTS

Student Organization App

'Online' - Student Organization

- A phone application designed for students, where they can sign up for events, get notified and share photos.
- Built the main app with a Flutter framework in order for multi-plattform accessibility.
- Set up GCP (Google Cloud Platform) and FireBase cloud functions in order for users to recive accurate real time notifications.
- Created an user database using appwrite. In order for users to be able to add profile pictures, and share and comment images.
